

PRO-MOSS® CHUNKS

DESCRIPTION

Select fibrous-CHUNK, blond Sphagnum peat moss for growers who prefer coarse particle size. PRO-MOSS 'CHUNKS' provides optimum air porosity and drainage when used as a major component in horticultural growing media. Ideal base for container nursery media and orchid mixes.

COMPONENTS

- Coarse Granulation Canadian Sphagnum Peat Moss

APPLICATIONS

Coarse component for mixing into horticultural growing media for:

- Orchids
- Hanging baskets
- Various flowering potted plants
- Nursery containers
